First Time Filers Quick Reference Guide

1. Submit Form 4419, *Application for Filing Information Returns Electronically (FIRE)*, to request authorization to file Forms 1097, 1098 Series, 1099 Series, 3921, 3922, 5498 Series, 8027, 8955-SSA, 1042-S, and W-2G electronically through the Filing Information Returns Electronically (FIRE) System. Allow a 45-day processing timeframe prior to the earliest information return due date. Form 4419 is subject to review before the approval to transmit electronically is granted and may require additional documentation at the request of the Internal Revenue Service (IRS). If your application is approved, a Transmitter Control Code (TCC) will be assigned to your business. If the electronically transmitted documents are determined to be invalid, the IRS has the authority to revoke the TCC and terminate the release of files. Refer to [Part B. Sec. 1, Application for Filing Information Returns Electronically](#).

Note 1: The FIRE System does not provide fill-in forms for information returns. Transmitters must have Software, an in-house programmer or a third party transmitter to put the file in the standard ASCII format. We do not accept scanned or PDF documents

2. Electronic Filing - you are required to establish an account on the FIRE System before transmitting files electronically. For more information on creating a User ID, password, PIN, and connecting to the FIRE System, refer to [Part B. Sec. 2, User ID Password and PIN Requirements](#), and [Part B. Sec. 3, Connecting to FIRE](#).

Note 2: The FIRE Production System and FIRE Test System do not communicate. You must create and maintain a separate account for each FIRE System.

3. File Format - The format must conform to the specifications found in [Part C. Record Format Specifications and Record Layouts](#). Filers may contact an outside vendor to purchase software or transmit files. To find software providers, perform an internet search with the keywords, "Form 1099 software providers".
4. Test Files - Filers are not required to submit a test file; however, the IRS encourages the submission of a test file for all new electronic filers to test hardware and software. Refer to [Part B. Sec. 6, Test Files](#). A test file is only required when applying to participate in the Combined Federal/State Filing Program. Refer to [Part A. Sec. 11, Combined Federal/State Filing Program \(CF/SF\)](#).
5. Common Problems - Review [Part B. Sec. 7, Common Problems](#), to avoid common processing and/or format errors before submitting your file.

Sec. 2 Purpose

The purpose of this publication is to provide the specifications for filing of Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G electronically with the IRS. This publication also provides the requirements and specifications for electronic filing under the Combined Federal/State Filing Program (CF/SF).

Generally, boxes on paper forms correspond with fields used for the electronic file; however, if the form and field instructions do not match, the guidance in this publication supersedes form instructions. Electronic reporting of information returns eliminates the need for electronic filers to file paper documents with the IRS. Do not send copies of paper forms to the IRS for any forms filed electronically as this will result in duplicate filing which may result in penalty notices.

The FIRE System can accept multiple files for the same type of return. For example, if a company has several branches issuing Forms 1099-INT, it is not necessary to consolidate all the forms into one transmission. Each file may be sent separately. Do not transmit duplicate data.

Note: Payers are responsible for providing statements to payees as outlined in the [General Instructions Information Returns](#).

Sec. 6 Filing Requirements, Retention Requirements, and Due Dates

.01 Filing Requirements

For instructions regarding Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G, refer to the [General Instructions for Certain Information Returns](#). The instructions include additional information about filing requirements, paper filing, and line instructions.

Filers of Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G may be required to file electronically. Treasury Regulation Section 301.6011-2 provides that any person, including a corporation, partnership, individual, estate, or trust, who is required to file 250 or more information returns, must file such returns electronically. The 250 or more requirement applies separately for each type of return and separately to each type of corrected return. If you are required to file electronically, and this requirement causes an undue hardship, see [Part A. Sec. 8, Form 8508, Request for Waiver from Filing Information Returns Electronically](#).

Note: All filers are encouraged to file information returns electronically even if they are not required to do so.

All filing requirements apply individually to each reporting entity as defined by its separate TIN. For example, if a corporation with several branches or locations uses the same employer identification number (EIN), the corporation must aggregate the total volume of returns to be filed for that EIN and apply the filing requirements to each type of return accordingly.

.02 Retention Requirements

Payers should retain a copy of information returns (or have the ability to reconstruct the data) for at least three years from the reporting due date with the following exceptions:

- Returns reporting federal withholding should be retained for four years.
- Retain a copy of Form 1099-C, *Cancellation of Debt*, for at least four years from the due date of the return.

Sec. 6 Filing Requirements, Retention Requirements, and Due Dates (continued)

.03 Due Dates

Forms 1097, 1098, 1099, 3921, 3922, and W-2G are filed on a calendar year basis. [Form 5498](#), *IRA Contribution Information*, [Form 5498-ESA](#), *Coverdell ESA Contribution Information*, and [Form 5498-SA](#), *HSA, Archer MSA, or Medicare Advantage MSA Information*, are used to report amounts contributed during or after the calendar year but no later than April 15.

The new due date is effective for tax year 2016, filed in 2017, and applies to paper and electronically filed returns.</p> <p>The due date for Form 1099-MISC with no data in box 7 remains at February 28 (paper) and March 31 (electronic).</p>		

Sec. 7 Extensions

A 30-day extension of time to file information returns may be submitted by creating and transmitting an electronic file or fill-in form on the [FIRE Production System](#), or submitting a paper [Form 8809](#). An approval letter will not be issued for the initial automatic 30-day extension request.

Regulations Section 1.6081-8(d)(2) allows a payer (filer) an additional 30-day extension of time to file information returns if the initial 30-day extension was granted and the additional extension is filed before the expiration of the initial 30-day extension. Generally, requests for additional time are granted only where it is shown that extenuating circumstances prevented filing by the date granted by the first request.

Note: The additional 30-day extension request can only be submitted via paper; an electronic additional extension file is no longer an option.

Beginning tax year 2016, requests for a Form W-2 extension must be submitted on paper Form 8809 and contain a written explanation to support the request for an extension of 30 days. The request must be signed by the filer/transmitter or a person who is duly authorized to sign a return. These extensions will not be automatically approved. Approval letters will not be issued for Form W-2 extension requests. Payer/filer will receive an incomplete or denial letter when applicable.

A 30-day extension request for Form 1099-MISC, box 7 NEC checked, must be timely submitted before the due date of January 31, 2017.

Extension requests for Form 5498-QA, *Able Account Contribution Information*, must be submitted on paper Form 8809 and cannot be submitted through FIRE. Additional information can be found in Form 8809 Instructions.

Refer to [Part D. Extension of Time](#).

Sec. 8 Form 8508, Request for Waiver from Filing Information Returns Electronically

If an employer is required to file original or corrected returns electronically and the requirement creates an undue hardship, a waiver may be requested by filing [Form 8508, Request for Waiver from Filing Information Returns Electronically](#), with the IRS.

Note: Form 8508 is also filed to request a waiver from filing Form W-2 series electronically. Transmitters must file a separate Form 8508 for each payer. Do not submit a list of payers. If a waiver for an original filing is approved, any corrections for the same type of returns will be covered under that waiver.

Filers are encouraged to file Form 8508 with the IRS at least 45 days before the due date of the returns, but no later than the due date of the returns for which the waiver is being requested. The IRS does not process waiver requests until January 1st of the calendar year in which the returns are due.

Waivers are evaluated on a case-by-case basis and are approved or denied based on criteria set forth under Treasury Regulation Section 301.6011-2(c)(2). Allow a minimum of 30 days for the IRS to respond to a waiver request.

An approved waiver will provide exemption from electronic filing for the current tax year only and employers may not apply for a waiver for more than one tax year. A waiver does not provide exemption from filing. If a waiver is approved, the filer/payer must timely file all information returns on acceptable paper forms with the IRS.

Sec. 8 Form 8508, *Request for Waiver from Filing Information Returns Electronically* (continued)

If a waiver request is approved, keep the approval letter on file. Do not send a copy of the approved waiver to the service center where the paper returns are filed. An approved waiver only applies to the requirement for filing information returns electronically. The payer must still timely file information returns with the appropriate service center on the official IRS paper forms or an acceptable substitute form. Mail a complete [Form 8508](#) to:

Internal Revenue Service
Attn: Extension of Time Coordinator
240 Murall Drive, Mail Stop 4360
Kearneysville, WV 25430

Note: Form 8508, *Request for Waiver From Filing Information Returns Electronically*, has been revised to include ACA Information Returns (Form 1095-B and Form 1094/1095-C). For more information on how to file ACA information returns including extension or waiver requests, see [Publication 5165, Guide for Electronically Filing Affordable Care Act \(ACA\) Information Returns for Software Developers and Transmitters](#).

Sec. 9 Penalties Associated with Information Returns

Generally, the following penalties apply to the person required to file information returns. The penalties apply to both paper and electronic filers:

- Failure to File Correct Information Returns by the Due Date (Section 6721) - If you fail to file a correct information return by the due date and you cannot show reasonable cause, you may be subject to a penalty.
- Failure to Furnish Correct Payee Statements (Section 6722) - If you fail to provide correct payee statements and you cannot show reasonable cause, you may be subject to a penalty.

Refer to [General Instructions for Certain Information Returns](#) for additional information on penalty specifications and guidelines.

Sec. 10 Corrected Returns

.01 General Information

If an information return was successfully processed by the IRS and you identify an error with the file after the IRS accepted the file and it is in "Good, Released" status, you need to file a corrected return. Do not file the original file again as this may result in duplicate reporting. File only the returns that require corrections. Do not code information returns omitted from the original file as corrections. If you omitted an information return, it should be filed as an original return. The standard correction process will not resolve duplicate reporting. All fields of the corrected return must be complete.

Treasury Regulation 301.6011-2 requires filers who are required to file 250 or more information returns for any calendar year to file the returns electronically. The 250 or more requirement applies separately for each type of form filed and separately for original and corrected returns. Example: If a payer has 100 Forms 1099-A to correct, the returns can be filed on paper because they fall under the 250 threshold. However, if the payer has 300 Forms 1099-B to correct, the forms must be filed electronically.

The filer or transmitter must furnish corrected statements to recipients as soon as possible. If a filer or transmitter discovers errors that affect a large number of recipients, contact the IRS at 1-866-455-7438. Send corrected returns to the IRS and notify the recipients.

Sec. 10 Corrected Returns (continued)

If corrected returns are not filed electronically, they must be filed on official forms. For information on substitute forms, refer to [Publication 1179](#), *General Rules and Specifications for Substitute Forms 1096, 1098, 1099, 5498, and Certain Other Information Returns*.

In general, corrected returns should be submitted for returns filed within the last three calendar years with the following exceptions:

- Backup withholding was imposed under Internal Revenue Code Section 3406 - four calendar years
- Form 1099-C, *Cancellation of Debt* - four calendar years

.02 Error in Reporting the Payer

If an error is discovered in reporting the payer (not recipient) name and/or TIN, the payer should write a letter to the IRS containing the following information:

- Name and address of payer
- Type of error (include the incorrect payer name/TIN that was reported)
- Tax year
- Correct payer TIN
- TCC
- Type of return
- Number of payees
- Filing method, paper or electronic
- If federal income tax was withheld

Mail correspondence to:

Internal Revenue Service
230 Murall Drive, Mail Stop 4360
Kearneysville, WV 25430

.03 Specifications for Filing Corrected Returns Electronically

The record sequence for filing corrections is the same as for original returns. Refer to [Part C. Record Format Specifications and Record Layouts](#), for more information. Corrected returns may be included in the same transmission as original returns; however, separate "A" Records are required.

The "B" Record provides a 20-character field for a unique Payer's Account Number for payees. The account number is required if there are multiple accounts for a recipient for whom more than one information return of the same type is being filed. This number will identify the appropriate incorrect return if more than one return is filed for a particular payee. Do not enter a TIN in this field. A payer's account number for the payee may be a checking account number, savings account number, serial number, or any other number assigned to the payee by the payer that will distinguish the specific account. This number must appear on the initial return and on the corrected return for the IRS to identify and process the correction properly.

Errors normally fall under one of the two categories listed. Next to each type of error is a list of instructions on how to file the corrected return. Review the charts that follow.

All corrections properly coded for the CF/SF will be made available to the participating states. Only send corrections which affect the federal reporting or affect federal and state reporting. Errors which apply only to a state filing requirement should be sent directly to the state.

Sec. 10 Corrected Returns (continued)

.04 Corrections and Penalties

Generally, the following penalties apply to the person required to file information returns. The penalties apply to both paper and electronic filers:

- Failure to File Correct Information Returns by the Due Date (Section 6721) - If you fail to file a correct information return by the due date and you cannot show reasonable cause, you may be subject to a penalty.
- Failure to Furnish Correct Payee Statements (Section 6722) - If you fail to provide correct payee statements and you cannot show reasonable cause, you may be subject to a penalty.

Refer to [General Instructions for Certain Information Returns](#) for additional information on penalty specifications and guidelines.

.05 Corrected Returns Procedures

There are numerous types of errors, and in some cases, more than one transaction may be required to correct the initial error. Review the “One-transaction Correction” and “Two-transaction Correction” tables below before transmitting a corrected file.

One-transaction Correction	
<p>If ...</p> <p>The original return was filed with one or more of the following error types:</p> <ol style="list-style-type: none"> Incorrect payment amount codes in the Payer “A” Record. Incorrect payment amounts in the Payee “B” Record. Incorrect code in the distribution code field in the Payee “B” Record. Incorrect payee indicator. (Payee indicators are non-money amount indicator fields located in the specific form record layouts of the Payee “B” Record between field positions 544-748.) Return should not have been filed. <p>Note: To correct a TIN and/or payee name, follow the instructions under Two-transaction Correction.</p>	<p>Then ...</p> <p>Follow the steps below for one-transaction correction:</p> <ol style="list-style-type: none"> 1. Prepare a new file. The first record on the file will be the Transmitter “T” Record. 2. Make a separate “A” Record for each type of return and each payer being reported. Payer information in the “A” Record must be the same as it was in the original submission. 3. The Payee “B” Records must show the correct record information as well as a Corrected Return Indicator Code of “G” in field position 6. 4. Corrected returns using “G” coded “B” Records may be on the same file as original returns; however, separate “A” Records are required. 5. Prepare a separate “C” Record for each type of return and each payer being reported. 6. The last record on the file must be the End of Transmission “F” Record.

Sample File layout for One-transaction Corrections

Transmitter “T” Record	Payer “A” Record	“G” coded Payee “B” Record	“G” coded Payee “B” Record	End of Payer “C” Record	End of Transmission “F” Record
------------------------------	------------------------	-------------------------------------	-------------------------------------	-------------------------------	--------------------------------------

Sec. 10 Corrected Returns (continued)

Two separate transactions are required to submit a two-transaction correction. You must follow the directions for both transactions.

Note: Do not use this correction process for money amount corrections.

Two-transaction Correction	
<p>If ...</p> <p>The original return was filed with one or more of the following error types:</p> <ol style="list-style-type: none"> No payee TIN (SSN, EIN, ITIN, QI-EIN, ATIN) Incorrect payee TIN Incorrect payee name Wrong type of return indicator 	<p>Then ...</p> <p>Follow the steps below for two-transaction correction:</p>
	<p>Transaction 1:</p> <ol style="list-style-type: none"> Prepare a new file. The first record on the file will be the Transmitter "T" Record. Make a separate "A" Record for each type of return and each payer being reported. The information in the "A" Record will be exactly the same as it was in the original submission. (See Note below). The Payee "B" Records must contain exactly the same information as submitted previously. Exception: Insert a Corrected Return indicator Code of "G" in field position 6 of the "B" Records, and enter "0" (zeros) in all payment amounts. (See Note below.) Corrected returns using "G" coded "B" Records may be on the same file as those returns filed with a "C" code; however, separate "A" Records are required. Prepare a separate "C" Record for each type of return and each payer being reported. <p>Note: Although the "A" and "B" Records will be exactly the same as the original submission, the Record Sequence Number will be different because this is a counter number and is unique to each file. For Form 1099-R corrections, if the amounts are zeros, certain indicators will not be used.</p>
	<p>Then . . .</p> <p>Follow the steps below for two-transaction correction:</p> <p>Transaction 2:</p> <ol style="list-style-type: none"> Make a separate "A" Record for each type of return and each payer being reported. The Payee "B" Records must show the correct information as well as a Corrected Return Indicator Code of "C" in field position 6. Corrected returns filed with the IRS using "C" coded "B" Records may be on the same file as those returns submitted with "G" codes; however, separate "A" Records are required. Prepare a separate "C" Record for each type of return and each payer being reported. The last record on the file must be the End of Transmission "F" Record.

Sec. 10 Corrected Returns (continued)

Sample File layout for Two-transaction Correction

Transmitter "T" Record	Payer "A" Record	"G" coded Payee "B" Record	"G" coded Payee "B" Record	End of Payer "C" Record	Payer "A" Record
		"C" coded Payee "B" Record	"C" coded Payee "B" Record	End of Payer "C" Record	Transmission "F" Record

Note: If a filer is reporting "G" coded, "C" coded, and/or "Non-coded" (original) returns on the same file, each category must be reported under separate "A" Records. Although the "A" Record will be exactly the same as the original submission, the Record Sequence Number may be different because this is a counter number and is unique to each file. For Form 1099-R corrections, if the amounts are zeros, certain indicators will not be used.

Sec. 11 Combined Federal/State Filing Program (CF/SF)

.01 General

The Combined Federal/State Filing Program (CF/SF) was established to simplify information returns filing for payers. Through CF/SF, the IRS electronically forwards information returns (original and corrected) to participating states.

The following information returns may be filed under the CF/SF:

- Form 1099-B, *Proceeds from Broker and Barter Exchange Transactions*
- Form 1099-DIV, *Dividends and Distributions*
- Form 1099-G, *Certain Government Payments*
- Form 1099-INT, *Interest Income*
- Form 1099-K, *Payment Card and Third Party Network Transactions*
- Form 1099-MISC, *Miscellaneous Income*
- Form 1099-OID, *Original Issue Discount*
- Form 1099-PATR, *Taxable Distributions Received From Cooperatives*
- Form 1099-R, *Distributions From Pensions, Annuities, Retirement or Profit-Sharing Plans, IRAs, Insurance Contracts, etc.*
- Form 5498, *IRA Contribution Information*

.02 Testing

To request approval to participate, an electronic test file coded for this program must be submitted to the FIRE Test System at <https://fire.test.irs.gov>. The FIRE Test System is available from November 1, 2016, through March 17, 2017. The FIRE Test System will be down from 6 p.m. (Eastern) December 9, 2016, through January 2, 2017, for yearly updates.

If the test file is acceptable, an approval letter will be sent. There is no charge to use CF/SF for approved participants.

A test file is only required for the first year a filer participates in the program; however, it is highly recommended that a test file be submitted every year. Records in the test and actual file must conform to current procedures.

Sec. 11 Combined Federal/State Filing Program (CF/SF) (continued)

Within two business days, the results of the electronic transmission(s) will be sent to the email address that was provided on the “Verify Your Filing Information” page in the FIRE Test System. If using email-filtering software, configure the software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov.

If the file is bad, the filer or transmitter must return to <https://fire.irs.gov/> and select “Check File Status” to determine what errors are in the file. See Part B. Sec. 3, *Connecting to FIRE*. If the test file was unacceptable, a new test file can be transmitted no later than March 17, 2017.

If a payee has a reporting requirement for more than one state, separate “B” Records must be created for each state. Payers must prorate the amounts to determine what should be reported to each state. Do not report the total amount to each state.

Some participating states require separate notification that the payer is filing in this manner. The IRS acts as a forwarding agent only. It is the payer’s responsibility to contact the appropriate state(s) for further information.

Participating states and corresponding valid state codes are listed below in Table 1, Participating States and Codes. The appropriate state code must be entered in fields requesting a CF/SF code. Do not use state abbreviations.

Each state’s filing requirements are subject to change by the state. It is the payer’s responsibility to contact the participating state(s) to verify their criteria. Upon submission of the files, the transmitter must be sure of the following:

- All records are accurate.
- State Total “K” Record(s) for each state(s) being reported follows the “C” Record.
- Payment amount totals and the valid participating state code are included in the State Totals “K” Record(s).
- The last “K” Record is followed by an “A” Record (if there are more payers to report) or an End of Transmission “F” Record (if this is the last record of the entire file).

The following table provides codes for participating states in the CF/SF Program.

Table 1: Participating States and Codes*

Sec. 12 State Abbreviation Codes and APO/FPO Addresses

.01 State Abbreviation Codes

The following state and U.S. territory abbreviations are to be used when developing the state code portion of the address fields. This table provides state and territory abbreviations only, and does not represent those states participating in the CF/SF Program.

Table 2: State & U.S. Territory Abbreviations

See [Part C. Record Format Specifications and Record Layouts](#) for more information on the required formatting for an address.

Filers must adhere to the city, state, and ZIP Code format for U.S. addresses in the “B” Record. This also includes American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.

Sec. 12 State Abbreviation Codes and APO/FPO Addresses (continued)

.02 APO and FPO Addresses

When reporting APO/FPO addresses, use the following format:

EXAMPLE:

Recipient Name	PVT Willard J. Doe
Mailing Address	Company F, PSC Box 100 167 Infantry REGT
Recipient City	APO (or FPO)
Recipient State	AE, AA, or AP*
Recipient ZIP Code	098010100

*AE is the designation for ZIP codes beginning with 090-098, AA for ZIP code 340, and AP for ZIP codes 962-966.

Sec. 13 Definition of Terms

ELEMENT	DESCRIPTION
Correction	A correction is an information return filed by the filer/transmitter to correct an information return that was previously filed and successfully processed by the IRS, but contained erroneous information.
EIN	A nine-digit employer identification number which has been assigned by the IRS for business federal tax reporting purpose.
Replacement	A replacement is an information return file sent by the filer/transmitter at the request of the IRS because of errors encountered while processing the filer's original file or correction file.
In-house Programmer	An employee or a hired contract programmer.
Payer's Account Number For Payee	<p>Any number assigned by the payer to the payee that can be used by the IRS to distinguish between information returns.</p> <ul style="list-style-type: none">• This number must be unique for each information return of the same type for the same payee. Refer to Part C. Payee "B" Record, Field Positions 21-40.• If a payee has more than one reporting of the same document type, it is vital that each reporting have a unique account number. For example, if a payer has three separate pension distributions for the same payee and three separate Forms 1099-R are filed, three separate unique account numbers are required.• A payee's account number may be given a unique sequencing number, such as 01, 02 or A, B, etc., to differentiate each reported information return.• Do not use the payee's TIN since this will not make each record unique. This information is critical when corrections are filed.• This number will be provided with the backup withholding notification and may be helpful in identifying the branch or subsidiary reporting the transaction.• The account number can be any combination of alpha, numeric, or special characters.

Part B. | Data Communication

Sec. 1 Application for Filing Information Returns Electronically

.01 Form 4419, *Application for Filing Information Returns Electronically*

All transmitters who file information returns electronically through the FIRE System are required to request authorization to file electronically by submitting [Form 4419, Application for Filing Information Returns Electronically](#). Additionally, in order to transmit files electronically through FIRE, you must have software that meets the requirements and record layouts in this publication; or a service provider that will create the file in the proper format. A scanned or PDF copy will not be accepted.

Complete Form 4419 online at <https://fire.irs.gov/> and take advantage of a reduced processing timeframe:

- At the main menu, select “Fill-in Form 4419”.
- Review the “Important Notes” screen to ensure that you have the correct information to proceed.
- To complete your submission, click the box, “*Yes, I am authorized to sign this document on behalf of the transmitter.*”

Note: The FIRE System does not provide fill-in forms for information returns.

Form 4419 may be submitted throughout the year; however, the application must be filed at least 45 days prior to the current year return due date.

.02 Do I Need More than One TCC?

No. Only one Transmitter Control Code (TCC) is required if you are only filing Forms 1097, 1098, 1099, 3921, 3922, 5498 and W-2G. The TCC is used to catalog files as they are received. The forms listed in Publication 1220 require a single TCC; therefore, only submit one Form 4419.

For example, if you intend to file Forms 1099-INT, submit Form 4419. If, at a later date, another type of form will be filed (Forms 1097, 1098, 1099, 3921, 3922, 5498, and W-2G), use the TCC assigned to file Forms 1099-INT. Do not submit an additional Form 4419.

An additional TCC is required for each of the following types of returns:

- Form 1042-S, *Foreign Person's U.S. Source Income Subject to Withholding*. Refer to [Publication 1187](#).
- Form 8027, *Employer's Annual Information Return of Tip Income and Allocated Tips*. Refer to [Publication 1239](#).
- Form 8955-SSA, *Annual Registration Statement Identifying Separated Participants with Deferred Vested Benefits*. Refer to [Publication 4810](#).

The IRS encourages transmitters who file for multiple payers to submit one application and use the assigned Transmitter Control Code (TCC) for all payers. The purpose of the TCC is to identify the transmitter of the file. You may transmit files for as many companies as you need under the one TCC. The information return data will be contained in the file itself. While not encouraged, additional TCCs can be issued to payers with multiple TINs. Transmitters cannot use more than one TCC in a file. Each TCC must be reported in separate transmissions. Some service bureaus will transmit files using their TCC, while others will require filers to obtain a TCC of their own.

Sec. 1 Application for Filing Information Returns Electronically (continued)

.03 Application Approval

If your application is approved, a five-character alphanumeric Transmitter Control Code (TCC) is assigned to your business. An approval letter will be issued to the address listed on Form 4419 informing you of your TCC. Allow 45 days for processing. A TCC will not be issued over the phone or via email. If you do not receive a TCC within 45 days, contact the IRS. Refer to [Part A. Sec. 4, Communicating with the IRS](#).

Electronically filed returns may not be transmitted through FIRE until Form 4419 has been approved and a TCC has been assigned. **Reminder:** You must have software that meets the requirements and record layouts in this publication or a service provider that will create the file in the proper format.

Form 4419 is subject to review before approval to transmit electronically is granted. The IRS may require additional documentation. Once a transmitter is approved to file electronically, it is not necessary to reapply unless:

- Payer has discontinued filing electronically for two consecutive years.
- Payer's files were transmitted in the past by a service bureau using the service bureau's TCC, but now the payer has computer equipment compatible with that of the IRS and wishes to prepare the files. The payer must request a TCC by submitting Form 4419.

The IRS has the authority to revoke the TCC and terminate the release of transmitted files.

.04 Updating Information on Form 4419

Transmitters should notify the IRS of any changes to their application information by submitting a revised paper Form 4419 (Rev. 6-2015). Check the "Revised" box located at the top of Form 4419 and provide the current TCC assigned to the business. A revised Form 4419 is required if you are updating a previously approved Form 4419 with the following information:

- Block 1 - Legal name and address
- Block 3 - Person to contact or contact information

Changes to the blocks listed below require you to submit a new Form 4419 and a new TCC will be assigned:

- Block 2 - EIN
- Block 7 - Type of return to be reported. **Note:** Do not check the "Revised" box.

Refer to [Form 4419 Instructions](#).

.05 Deleted TCC

Your TCC will remain valid as long as you transmit information returns or requests for extension of time to file information returns electronically through the FIRE System. If you do not use your TCC for two consecutive years, your TCC will be deleted. A deleted TCC cannot be reactivated. You will need to submit a new Form 4419.

Sec. 2 User ID, Password and PIN Requirements

You must establish a FIRE account before you can transmit files through the FIRE Production System or the FIRE Test System. The system will prompt you to create your User ID, password, and a 10-digit Personal Identification Number (PIN). Each user should create their individual FIRE account and login credentials. Multiple FIRE accounts can be created under one TCC.

The FIRE Production System and the FIRE Test System are two different sites that do not communicate with each other. If you plan on sending a production file and a test file, you will need an account on each system.

You must enter the PIN each time you electronically send an original, corrected, or replacement file. Test files do not require a PIN. Authorized agents or transmitters may enter their PIN; however, the payer/filer is responsible for the accuracy of the returns and will be liable for penalties for failure to comply with filing requirements.

If you are submitting files for more than one TCC, it is not necessary to create a separate User ID and password for each TCC.

Sec. 3 Connecting to FIRE

Connect to the FIRE Production System by accessing <https://fire.irs.gov/>. The FIRE Production System is available from January 17, 2017, through December 8, 2017.

Connect to the FIRE Test System by accessing <https://fire.test.irs.gov/>. The FIRE Test System is available from November 1, 2016, through March 17, 2017. The FIRE Test System will be down from 6 p.m. (Eastern) December 9, 2016, through January 2, 2017.

Note: The FIRE Production System and the FIRE Test System do not communicate. You must create and maintain a separate account for each FIRE System.

Follow the table below to connect to the FIRE System.

Sec. 3 Connecting to FIRE (continued)

Uploading Files to FIRE

Filers may upload a file to the FIRE System by taking the following actions:

- After logging in, go to the Main Menu
- Select “Send Information Returns”
- Enter the TCC
- Enter the TIN
- “Submit”
- Update company information as appropriate and/or click “Accept” (The system will display the company name, address, city, state, ZIP code, telephone number, contact, and email address. This information is used to email the transmitter regarding the transmission.)
- Select one of the following:
 - Original File
 - Replacement File
 - Correction File
 - Test File (This option will only be available on the FIRE Test System at <https://fire.test.irs.gov/> from November 1, 2016, through March 17, 2017. The FIRE Test System will be down from 6 p.m. (Eastern) December 9, 2016, through January 2, 2017.)
- Enter the ten-digit PIN (A test file will not receive this prompt.)
- “Submit”
- “Browse” to locate the file and open it
- “Upload”

Note: When the upload is complete, the screen will display the total bytes received and display the name of the file just uploaded. It is recommended that you print the page for your records. If this page is not displayed on your screen, we probably did not receive the file. To verify, go to “Check File Status” option on the main menu. We received the file if the file name is displayed and the count is equal to ‘0’ and the results indicate “not yet processed.”

Checking the Status of Your File

It is the transmitter’s responsibility to check the status of submitted files. If you do not receive an email within two business days or if you receive an email indicating the file is bad:

- Log back into the FIRE System
- Select “Main Menu”
- Select “Check File Status”
- Enter the TCC
- Enter the TIN and “Search”

File Status Results:

- **Good, Not Released** - The filer is finished with this file if the “Count of Payees” is correct. The file is automatically released after ten calendar days unless the filer contacts the IRS within this timeframe.
- **Good, Released** - The file has been released for IRS processing.
- **Bad** - The file has errors. Click on the filename to view the error message(s), fix the errors, and resubmit the file timely as a “Replacement” file.
- **Not Yet Processed** - The file has been received, but results are not available. Check back in a few days.

Sec. 4 Electronic Specifications

.01 FIRE System

The FIRE System is designed exclusively for electronic filing of Forms 1042-S, 1097, 1098, 1099, 3921, 3922, 5498, 8027, 8955-SSA and W-2G. Electronic files are transmitted through the FIRE Production System at <https://fire.irs.gov/>. The electronic filing of information returns is not affiliated with any other IRS electronic filing programs. Filers must obtain separate approval to participate in different programs.

The FIRE Production System does not provide fill-in forms, with the exception of:

- [Form 8809](#), *Application for Extension of Time to File Information Returns*
- [Form 4419](#), *Application for Filing Information Returns Electronically (FIRE)*

The FIRE System can accept multiple files for the same type of return. For example, if a company has several branches issuing Forms 1099-INT, it is not necessary to consolidate all the forms into one transmission. Each file may be sent separately. Do not transmit duplicate data.

Electronic reporting of information returns eliminates the need for electronic filers to send paper documents to the IRS. Do not send copies of the paper forms to the IRS for any forms filed electronically. This will result in duplicate filing.

.02 FIRE System Internet Security Technical Standards

FIRE System Internet Security Technical Standards are:

- HTTP 1.1 Specification <http://www.w3.org/Protocols/rfc2616/rfc2616.txt>
- TLS 1.1 and 1.2 are implemented using SHA and RSA 1024 bits during the asymmetric handshake
- The filer can use one of the following encryption algorithms, listed in order of priority using TLS:
 - AES 256-bit (FIPS-197)
 - AES 128-bit (FIPS-197)
 - TDES 168-bit (FIPS-46-3)

Sec. 5 Electronic Submissions

.01 Electronic Submissions

The FIRE System is available for electronic submissions 24 hours daily with the exception of:

- FIRE Production System will be down from 6 p.m. (Eastern) December 9, 2016, through January 16, 2017, for yearly updates.
- FIRE Test System is available from November 1, 2016, through March 17, 2017. The FIRE Test System will be down from 6 p.m. (Eastern) December 9, 2016, through January 2, 2017, for yearly updates.
- FIRE Production and FIRE Test Systems may be down every Wednesday from 2 a.m. to 5 a.m. (Eastern) for programming updates.

Standard ASCII code is required for all files. The file size cannot exceed 2.5 million records. The time required to transmit files varies depending upon your type of connection to the internet.

- When sending electronic files larger than 10,000 records, data compression is encouraged. The time required to transmit a file can be reduced up to 95 percent by using compression.
- WinZip and PKZIP are the only acceptable compression packages. The IRS cannot accept self-extracting zip files or compressed files containing multiple files.
- If you are having trouble transmitting files with a scripting process, please contact the IRS at 1-866-455-7438 for assistance.

Sec. 5 Electronic Submissions (continued)

Transmitters may create files using self-assigned file name(s). However, the FIRE System will assign a unique filename. Record the FIRE filename from the "Check File Status" page as it is required when assistance is needed. The FIRE filename consists of:

- Submission type (Original, Correction, Replacement, and Test)
- TCC
- Four-digit sequence number. The sequence number will be increased for every file sent
- Example, if this is the first original file for the calendar year and the TCC is 44444, the IRS assigned filename would be ORIG.44444.0001

Prior year data, original and corrected, must be filed according to the requirements of this publication. Use the record format for the current year when submitting prior year data. Each tax year must be electronically filed in separate transmissions. However, use the actual year designation of the data in field positions 2-5 of the "T", "A", and "B" Records. Transmitter "T" Record Field position 6, Prior Year Data Indicator, must contain a "P." A separate transmission is required for each tax year. See [Part C. Record Format Specifications and Record Layouts](#).

.02 File Definitions

It is important to distinguish between the specific types of files:

Original File – Contains information returns that have not been previously reported to the IRS.

Correction File – Contains information returns that were previously submitted and processed but were found to contain incorrect information. Correction files should only contain records that require a correction, not the entire file.

Replacement File – A replacement file is sent when a "Bad" status is received. After the necessary changes have been made, transmit the entire file through the FIRE Production System as a replacement file.

Test File – Contains data that is formatted to the specifications in Publication 1220 and can only be sent through the FIRE Test System at <https://fire.test.irs.gov/>.

.03 Submission Responses

The results of your electronic transmission(s) will be sent to the email address that was provided on the "Verify Your Filing Information" screen within two days after a file has been submitted. If using email filtering software, configure software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov.

If a file is bad, the transmitter must return to <https://fire.irs.gov/> or <https://fire.test.irs.gov/> to identify the errors. At the main menu, select *Check File Status*.

It is the filer's responsibility to check the status of the file. If a timely-filed electronic file is bad, the filer will have up to 60 days from the day the file was transmitted to submit an acceptable replacement file. If an acceptable replacement file is not received within 60 days, the payer could be subject to late filing penalties.

Note: The timeframe only applies to files originally filed electronically.

If the file is good, it is released for mainline processing after ten calendar days from receipt. Contact the IRS within the ten-day timeframe to stop processing.

Sec. 6 Test Files

A test file is not required unless participating in the CF/SF Program for the first year. However, the submission of a test file is encouraged for all new electronic filers to test hardware and software. See [Part B. Sec. 3, Connecting to FIRE](#).

The test file must consist of a sample of each type of record:

- Transmitter "T" Record
- Use the Test Indicator "T" in field position 28 on the "T" Record
- Payer "A" Record
- Multiple Payee "B" Records (at least eleven "B" Records per each "A" Record)
- End of Payer "C" Record
- State Totals "K" Record(s) - if participating in the CF/SF
- End of Transmission "F" Record

Note: See [Part C. Record Format Specifications and Record Layouts](#), for record formats.

The IRS will check the file to ensure it meets the specifications outlined in this publication. Current filers may send a test file to ensure the software reflects all required programming changes. However, not all validity, consistency, or math error tests will be conducted.

Provide a valid email address on the "Verify Your Filing Information" page. You will be notified of your file acceptance by email within two days of transmission. When using email filtering software, configure software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov.

It is the transmitter's responsibility to check the results of the submission. See [Part B. Sec. 3, Connecting to FIRE](#).

The following results will be displayed:

- **Good, Federal Reporting** - The test file is good for federal reporting.
- **Good, Federal/State Reporting** - The file is good for the CF/SF.
- **Bad** - The test file contains errors. Click on the filename for a list of the errors.
- **Not Yet Processed** - The file has been received, but results are not available. Please check back in a few days.

Sec. 7 Common Problems

Item	Issue	Resolution
1	You have not received a file status email.	To receive emails concerning files, processing results, reminders, and notices, set the SPAM filter to receive email from fire@irs.gov and irs.e-helpmail@irs.gov . Check the File Status to ensure that your information was transmitted. Check "Verify Your Filing Information" page in your FIRE account to ensure the correct email address is displayed.
2	You do not know the status of your submission.	Generally, the results of a file are posted to the FIRE System within two business days. If the correct email address was provided on the "Verify Your Filing Information" screen when the file was uploaded, an email will be sent regarding the File Status. If the results in the email indicate "Good, Not Released" and the "Count of Payees" is correct, the filer is finished with this file. If any other results are received, follow the instructions in the "Check File Status" option. If the file contains errors, get an online listing of the errors. If the file status is good, but the file should not be processed, filers should contact the IRS within ten calendar days from the transmission of the file.
3	You received a file status of "Bad".	If a file is bad, make necessary changes and resubmit timely as a replacement. If timely filed transmission is "Bad", you have 60 days to send a good replacement.
4	You received an error that more than one file is compressed within the file.	Only compress one file at a time. For example, if there are ten uncompressed files to send, compress each file separately and send ten separate compressed files.
5	You resent your entire file as a Correction after only a few changes were made.	Only send those returns that need corrections; not the entire file. See Part A. Sec. 10. Corrected Returns .
6	You received an error that the file is formatted as EBCDIC.	All files submitted electronically must be in standard ASCII code.
7	You receive a TCC/TIN mismatch error when entering your TCC/TIN combination in your FIRE System account.	Enter the TIN of the company assigned to the TCC.
8	Transmitter sent the wrong file.	Call the IRS at 1-866-455-7438. The IRS may be able to stop the file before it is processed.
9	You sent a file that is in the "Good/Not Released Status" and you want to send a different file in place of the previous one.	Contact the IRS at 1-866-455-7438 to identify options available. The IRS may be able to close the file or change the status to "Bad".
10	You sent a file in PDF format.	All files submitted electronically must be in standard ASCII code. If you have software that is supposed to produce this file, contact the software company to see if their software has the ability to produce a file in the proper format.

Sec. 8 Common Formatting Errors

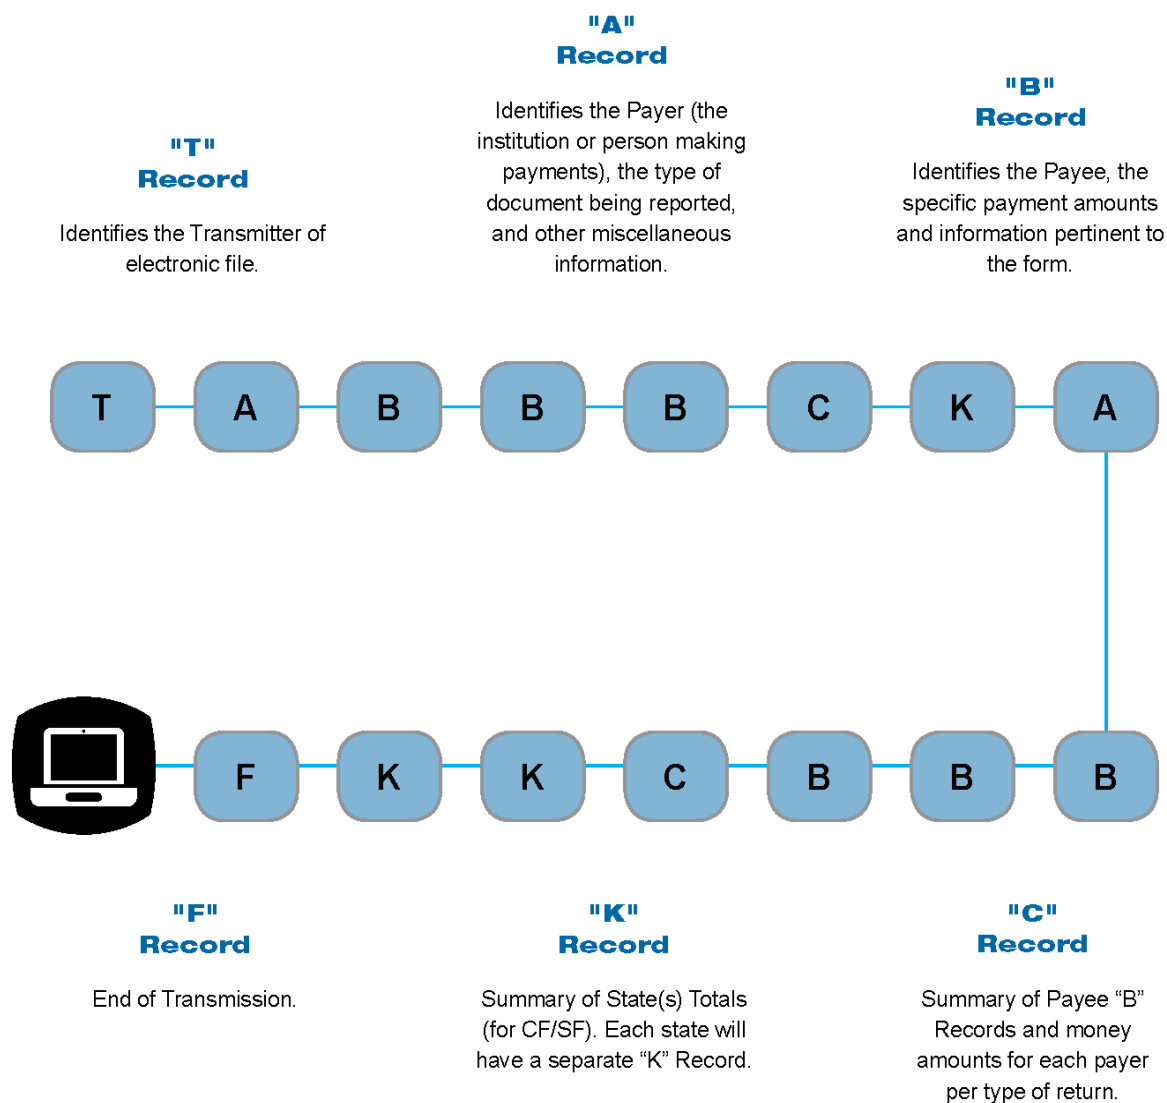

Item	Issue	Resolution
1	"C" Record contains Control Totals that do not equal the IRS total of "B" Records.	The "C" Record is a summary record for a type of return for a given payer. The IRS compares the total number of payees and payment amounts in the "B" Records with totals in the "C" Records. The two totals must agree. Do not enter negative amounts except when reporting Forms 1099-B, 1099-OID, or 1099-C. Money amounts must be numeric and right justified. Unused positions must be zero (0) filled. Do not use blanks in money amount fields.
2	You identified your file as a correction; however, the data is not coded with a "G" or "C" in position 6.	When a file is submitted as a correction file, there must be a Corrected Return Indicator "G" or "C" in position 6 of the Payee "B" record. See Part A, Sec. 10, Corrected Returns .
3	"A" Record contains missing or invalid TIN in positions 12-20.	The Payer's TIN reported in positions 12-20 of the "A" Record must be a nine-digit number. Do not enter hyphens. The TIN and the First Payer Name Line provided in the "A" Record must correspond.
4	"T" Record, "A" Record and/or "B" Record appear to have an incorrect tax year in positions 2-5.	The tax year in the transmitter, payer, and payee records must reflect the tax year of the information return being reported. For prior tax year data, there must be a "P" in position 6 of the Transmitter "T" Record. This position must be blank for current year.
5	"T" Record has a "T" (for Test) in position 28; however, your file was not sent as a test.	Remove the "T" from position 28 on the "T" record and resubmit as a replacement. CAUTION: Do not remove the "T" from position 1 of the "T" Record, only from position 28.
6	A percentage of your "B" Records contain missing and/or invalid TINs.	TINs entered in positions 12-20 of the Payee "B" records must consist of 9 numeric characters only. Do not enter hyphens. Incorrect formatting of TINs may result in a penalty.
7	A percentage of your Form 1099-R "B" Records contain invalid or missing distribution codes.	When transmitting Form 1099-R, there must be a valid Distribution Code(s) in positions 545-546 of the Payee "B" Record(s). For valid codes and combinations, refer to the chart in Part C. If only one distribution code is required, enter in position 545 and position 546 must be blank. A blank in position 545 is not acceptable.
8	"A" Record has an incorrect/invalid type of return and/or amount code(s) in positions 26-43.	The Amount Codes used in the "A" Record must correspond with the payment amount fields used in the "B" Record(s). The Amount Codes must be left justified and in ascending order. Unused positions must be blank filled. For example: If the "B" Record(s) show payment amounts in payment amount fields 2, 4, and 7, then the "A" Record must correspond with 2, 4, and 7 in the amount code fields.

Part C. | Record Format Specifications and Record Layouts

File Format

Each record must be 750 positions.

Sec. 1 Transmitter “T” Record General Field Descriptions

Sec. 2 Payer “A” Record

General Field Descriptions

The second record on the file must be a Payer “A” Record.

The Payer “A” Record identifies the person making payments. The payer will be held responsible for the completeness, accuracy, and timely submission of electronic files. Examples of a Payer include:

- Recipient of mortgage payments
 - Recipient of student loan interest payments
 - Educational institution
 - Broker
 - Person reporting a real estate transaction
 - Barter exchange
 - Creditor
 - Trustee or issuer of any IRA or MSA plan
 - Lender who acquires an interest in secured property or who has a reason to know that the property has been abandoned
- A transmitter may include Payee “B” Records for more than one payer in a file; however, each group of “B” Records must be preceded by an “A” Record and followed by an End of Payer “C” Record. A single file may contain different types of returns but the types of returns cannot be intermingled. A separate “A” Record is required for each payer and each type of return being reported.
 - The number of “A” Records depends on the number of payers and the different types of returns being reported. Do not submit separate “A” Records for each payment amount being reported. For example, if a payer is filing Form 1099-DIV to report Amount Codes 1, 2, and 3, all three amount codes should be reported under one “A” Record, not three separate “A” Records.
 - The maximum number of “A” Records allowed in a file is 99,000. All records must be a fixed length of 750 positions. All alpha characters entered in the “A” Record must be upper case.
 - For all fields marked “Required,” the transmitter must provide the information described under General Field Description. For those fields not marked “Required,” a transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated field position(s) and for the indicated length.

Record Name: Payer “A” Record			
Field Position	Field Title	Length	General Field Description
1	Record Type	1	Required. Enter an "A".
2-5	Payment Year	4	Required. Enter “2016.” If reporting prior year data, report the year which applies (2015, 2014, etc.).
6	Combined Federal/ State Filing Program	1	Required for CF/SF. Enter “1” (one) if approved and submitting information as part of the CF/SF Program or if submitting a test file in order to obtain approval for the CF/SF Program. Otherwise, enter a blank. Note 1: If the Payer “A” Record is coded for CF/SF, there must be coding in the Payee “B” Records and the State Totals “K” Records. Note 2: If “1” (one) is entered in this field position, be sure to code the Payee “B” Records with the appropriate state code. Refer to Part A. Sec. 11, Table 1, Participating States and Codes , for further information.
7-11	Blank	5	Enter blanks.
12-20	Payer’s Taxpayer Identification Number (TIN)	9	Required. Enter the valid nine-digit taxpayer identification number assigned to the payer. Do not enter blanks, hyphens, or alpha characters. Filling the field with all zeros, ones, twos, etc., will result in an incorrect TIN. Note: For foreign entities that are not required to have a TIN, this field must be blank; however, the Foreign Entity Indicator, position 52 of the “A” Record, must be set to one (1).
21-24	Payer Name Control	4	Enter the four characters of the name control or enter blanks. See Part E. Exhibit 1, Name Control .
25	Last Filing Indicator	1	Enter a “1” (one) if this is the last year this payer name and TIN will file information returns electronically or on paper. Otherwise, enter a blank.

Sec. 3 Payee “B” Record

General Field Descriptions

The “B” Record contains the payment information from information returns.

- The record layout for field positions 1 through 543 is the same for all types of returns.
- Field positions 544 through 750 vary for each type of return to accommodate special fields for individual forms.
- Allow for all 16 Payment Amount Fields. For the fields not used, enter “0” (zeros).
- All records must be a fixed length of 750 positions.
- All alpha characters must be upper case.
- Do not use decimal points (.) to indicate dollars and cents.

For all fields marked “**Required**,” the transmitter must provide the information described under “General Field Description.” For those fields not marked “**Required**,” the transmitter must allow for the field, but may be instructed to enter blanks or zeros in the indicated field position(s) and for the indicated length.

A field is also provided for Special Data Entries. This field may be used to record information required by state or local governments, or for the personal use of the filer. The IRS does not use the data provided in the Special Data Entries Field; therefore, the IRS program does not check the content or format of the data entered in this field. It is the filer’s option to use the Special Data Entries Field.

Following the Special Data Entries Field, payment fields have been allocated for State Income Tax Withheld and Local Income Tax Withheld. These fields are for the convenience of filers. The information will not be used by the IRS.

Adhere to guidelines listed in [Part A. Sec. 11, Combined Federal/State Filing Program](#) if participating in the program.

Record Name: Payee “B” Record (continued)

Field Position	Field Title	Length	General Field Description
21-40	Payer’s Account Number For Payee	20	Required if submitting more than one information return of the same type for the same payee. Enter any number assigned by the payer to the payee that can be used by the IRS to distinguish between information returns. This number must be unique for each information return of the same type for the same payee. If a payee has more than one reporting of the same document type, it is vital that each reporting have a unique account number. For example, if a payer has three separate pension distributions for the same payee and three separate Forms 1099-R are filed, three separate unique account numbers are required. A payee’s account number may be given a unique sequencing number, such as 01, 02, or A, B, etc., to differentiate each reported information return. Do not use the payee’s TIN since this will not make each record unique. This information is critical when corrections are filed. This number will be provided with the backup withholding notification and may be helpful in identifying the branch or subsidiary reporting the transaction. The account number can be any combination of alpha, numeric, or special characters. If fewer than 20 characters are used, filers may either left or right justify, filling the remaining positions with blanks.
41-44	Payer’s Office Code	4	Enter the office code of the payer. Otherwise, enter blanks. For payers with multiple locations, this field may be used to identify the location of the office submitting the information returns. This code will also appear on backup withholding notices.
45-54	Blank	10	Enter blanks.
Payment Amount Fields (Must be numeric)			Required. Filers should allow for all payment amounts. For those not used, enter zeros. Each payment field must contain 12 numeric characters. Each payment amount must contain U.S. dollars and cents. The right-most two positions represent cents in the payment amount fields. Do not enter dollar signs, commas, decimal points, or negative payments, except those items that reflect a loss on Form 1099-B, 1099-OID, or 1099-Q. Positive and negative amounts are indicated by placing a “+” (plus) or “-” (minus) sign in the left-most position of the payment amount field. A negative over punch in the unit’s position may be used instead of a minus sign, to indicate a negative amount. If a plus sign, minus sign, or negative over punch is not used, the number is assumed to be positive. Negative over punch cannot be used in PC created files. Payment amounts must be right justified and fill unused positions with zeros.

Caution:

If payment amounts exceed the 12 field positions allotted, a separate Payee “B” Record must be submitted for the remainder. The files cannot be exactly the same to avoid duplicate filing discrepancies. For example: For Form 1099-K reporting 12,000,000,000.00, the first “B” record would show 8,000,000,000.00 and the second “B” record would show 4,000,000,000.00. One substitute Form 1099-K may be sent to the recipient aggregating the multiple Forms 1099-K.

The End of Payer “C” Record is a fixed length of 750 positions. The control fields are each 18 positions in length.

Record Name: End of Payer “C” Record

Part D. | Extension of Time

Sec. 1 Extension of Time

.01 Application for Extension of Time to File Information Returns (30-day automatic)

An application for extension of time to file information returns covered by [Form 8809](#) must be filed by the due date of the return for which the extension is being requested. A separate extension application is required for each payer/filer.

The IRS encourages the payer/filer community to utilize electronic filing via the FIRE production system (options listed below) in lieu of the paper Form 8809.

There are three methods for filing a request for an extension of time to file information returns:

Method	How To	Notification
Electronic File Transmission Note: A TCC is required.	A request for an extension of time to file information returns may be filed electronically by transmitting an electronic extension file. Note: Effective tax year 2016, Form W-2 may no longer use this option. Refer to Form 8809 Instructions.	Transmitters requesting an extension of time via an electronic file will receive the file status results online.
Online submission of <i>Extension of Time to File Information Returns</i>	Fill-in Form 8809 may be completed online via the FIRE Production System at https://fire.irs.gov/ . From the Main Menu click "Extension of Time Request" and then click "Fill-in Extension Form". Refer to Part B. Sec. 3, Connecting to FIRE . Note: Effective tax year 2016, Form W-2 may no longer use this option. Refer to Form 8809 Instructions.	Forms 8809 completed online receive an instant acknowledgement on screen if forms are completed properly and timely.
Paper submissions of Form 8809, <i>Application for Extension of Time to File Information Returns</i>	Form 8809 can be obtained on https://www.irs.gov/forms-pubs .	Approval letters will not be issued for 30-day automatic extension requests. Payer/filer will receive denial letters when applicable. Approval letters will not be issued for Form W-2 extension requests. Payer/filer will receive incomplete or denial letters when applicable.

Electronic file processing results will be sent via email if a valid email address was provided on the "Verify Your Filing Information" screen. If you are using email filtering software, configure software to accept email from fire@irs.gov and irs.e-helpmail@irs.gov.

If the request for an extension of time to file an information return is received beyond the due date of the information return, the request will be denied. For more information on extension requests and requesting an additional extension of time, see Form 8809, *Application for Extension of Time to File Information Returns*.

For information on Additional Extension of Time and Extension of Time for Recipient Copies of Information Returns, see Part M. of the [General Instructions for Certain Information Returns](#).

Sec. 1 Extension of Time (continued)

.02 Extension of Time Record Layout

To create the file used to submit extensions of time via electronic file transmission method, the transmitter must:

- Have an active Transmitter Control Code (TCC).
- Submit files containing only one TCC.

Note: Do not electronically transmit 2016 extension requests before January 17, 2017.

The following Record Layout contains the specifications to create a file to transmit extensions of time requests electronically including:

- Required 200-byte format.
- General Field Description with information to assist in completing each field.
- Positions 6 through 187 contain information about the payer for whom the extension of time to file is being requested. Do not enter transmitter information in these fields.

Part E. | Exhibits

Exhibit 1 Name Control

The “B” record includes a field in the payee records titled, “Name Control” in which the first four characters of the payee’s last name are to be entered by the filer. If filers are unable to determine the first four characters of the last name, the Name Control Field may be left blank.

It is important to submit the “B” record with an accurate Name Control as it facilitates the identification of the payee within the IRS programs. The guidelines below are broken into organization type.

Individuals

A name control for an individual is generally the first four characters of the last name on the information return.

- The name control consists of four alpha and/or numeric characters.
- The hyphen (-) or a blank space are the only special characters allowed in the name control. These characters cannot be in the first position of the name control.
- The name control can have less, but no more than four characters. Blanks may be present only as the last three positions of the name control.
- If an individual has a hyphenated last name, the name control is the first four characters from the first of the two last names.
- For joint returns, regardless of whether the payees use the same or different last names, the name control is the first four characters of the primary payee’s last name.

Examples – Individuals

Joe <u>McCedar</u>	MCCE

Sole Proprietor

- A sole proprietor must always use his/her individual name as the legal name of the business for IRS purposes.
- The name control consists of four alpha and/or numeric characters.
- The name control can have less, but no more than four characters.
- The hyphen (-) or a blank space are the only special characters allowed in the name control. These characters cannot be in the first position of the name control.
- When the taxpayer has a true name and a trade name, the name control is the first four characters of the individual's last name.
- When an individual's two last names are hyphenated, the name control is the first four characters of the first last name.

Examples – Sole Proprietor

Exhibit 1 Name Control (continued)

Partnerships

The name control for a partnership will usually result in the following order of selection:

1. For businesses “doing business as” (dba) or with a trade name, use the first four characters of the dba or trade name.
2. If there is no business or trade name, use the first four characters of the partnership name (even if it is an individual’s name, such as in a law firm partnership).
3. Online receipt of EINs generates separate rules for the name control of partnerships.
4. Whether received online or via paper, if the first word is “The,” disregard it unless it is followed by only one other word.
5. If the EIN was assigned online (the EIN will begin with one of the following two digits: 20, 26, 27, or 45), then the name control for a partnership is developed using the first four characters of the primary name line.
6. If the first two digits of the EIN are other than 20, 26, 27, or 45, the name control for a partnership results from the trade or business name of the partnership. If there is no trade or business name, a name control results from the first four letters of a partnership name. In the case of a list of partners followed by the word partnership or an abbreviation thereof, use the last name of the first partner on the original [Form SS-4](#), Application for Employer Identification Number.

Estates, Trusts, and Fiduciaries

The name control for estates is the first four characters of the last name of the decedent. The last name of the decedent must have the word "Estate" after the first four characters in the primary name line.

The name control for trusts and fiduciaries results in the following:

1. Name controls for individual trusts are created from the first four characters of the individual's last name.
2. For corporations set up as trusts, use the first four characters of the corporate name.
3. There are separate rules for the name control of trusts, depending on whether the EIN is an online assignment.
4. If the EIN is assigned online (the EIN will begin with one of the following two digits: 20, 26, 27, or 45), then the name control is developed using the first four characters of the first name on the primary name line.
(**Note:** The online EIN application will begin assigning the first two digits of 46 and 47 in the future.) Ignore leading phrases such as "Trust for" or "Irrevocable Trust."
5. If the first two digits of the EIN are other than 20, 26, 27, or 45, (46 and 47, in the future) then the name control for a trust or fiduciary account results from the name of the person in whose name the trust or fiduciary account is established.

Other Organizations

Compliance with the following will facilitate the computer programs in identifying the correct name control:

1. The only organization, which you will always abbreviate, is Parent Teachers Association (PTA). The name control will be "PTA" plus the first letter of the name of the state in which the PTA is located.
2. The name control for a local or post number is the first four characters of the national title.
3. Use the name control of the national organization name if there is a Group Exemption Number (GEN).
4. For churches and their subordinates (for example nursing homes, hospitals), the name control consists of the first four characters of the legal name of the church or subordinate.
5. If the organization's name indicates a political organization, use the individual's name as the name control.
6. The words Kabushiki Kaisha or Gaisha are the Japanese translation of the words "stock company" or "corporation." Therefore, if these words appear in a name line, these words would move to the end of the name where the word "corporation" would normally appear.
